

This is a service being offered at our church by Coastal Surgery Specialists. Please note that pre-registration is required.

We Can Help You Avoid a Stroke

Trusted by Hospitals Nationwide

Life Line Screening has screened over 6 million participants and has partnered with hospitals across the country. Why? Because the ultrasound screenings that we offer can help save your life.

1 Stroke/Carotid Artery Screening – \$60.00

Ultrasound evaluation of the carotid arteries that screens for buildup of fatty plaque – the leading cause of strokes.

2 Heart Rhythm Screening (Atrial Fibrillation) – \$60.00

A quick and easy test using EKG electrodes placed on the arms and legs to identify the presence or absence of an irregular heartbeat at the time of the screening.

3 Abdominal Aortic Aneurysm Screening – \$60.00

Ultrasound is used to screen for the presence of an aneurysm in the abdominal aorta that could lead to a ruptured aortic artery.

4 Peripheral Arterial Disease Screening – \$60.00

Evaluates for peripheral arterial disease (plaque buildup) in the lower extremities. It is 4-5 times more likely you will die from heart disease if you have peripheral arterial disease.

5 Osteoporosis Risk Assessment – \$35.00

An ultrasound measurement of the heel bone to determine abnormal bone mass density. Osteoporosis is painless and silent in its early stages.

Where: Oleander United Methodist Church

When: Monday, December 19, 2011

This event is also being sponsored by Coastal Surgery Specialists

Pre-registration is required. Call 1-800-690-6313

****Vascular packages range from \$129 - \$159****

Life Line Screening uses only advanced color Doppler ultrasound technology and newer non-invasive technologies. Screening results are provided to you within 21 days after physician review. Life Line Screening is dedicated to providing the highest quality imaging technology at an affordable cost. Our mission is to make people aware of an undiagnosed health problem and encourage them to seek follow-up care with their physician. Life Line Screening offers a convenient, affordable, confidential and accurate way for men and women to monitor their health. If a significant finding is noted through the screening process, you will take the report to your physician who can then advise further testing and give consideration for treatment. Appropriate medication of disease risk factors (including high blood pressure, smoking, heart disease, diabetes and poor diet) is also necessary for stroke prevention. Our screening cannot detect all forms of stroke. All future screening purposes only. You should discuss with your personal physician regarding your screening results. Insurance Note: Life Line Screening does not participate in the Medicare program and the cost of our screening services is not covered or reimbursable by Medicare. Life Line Screening does not file insurance claims and the cost of our screening services is your responsibility. Screenings in California are provided by Life Line Medical Screening, a professional physician practice. Screenings in Texas are performed by Life Line Screening on behalf of Life Line Screening Physicians, P.A. Screenings in New Hampshire, New Jersey and New York are performed by Life Line Medical Screening, LLC (Life Line Screening), 33 Mayana Street, Purisville, NY 14203. Life Line Screening does not engage in the practice of medicine in these states. This information is not intended to induce reliance by Life Line Screening to Life Line Medical Screening, LLC for any professional medical services. Texas Residents: Physician consultation is required. A Life Line Screening affiliated physician will provide authorization for you if you wish. If a potentially life-threatening condition is discovered you will promptly receive your results after physician review. © Life Line Screening of America, Ltd 2010 www.lifelinescreening.com/community-partners A-22111-008
